OUR PRODUCTS & PARTNERSHIPS

Care at every stage, from origin to cup

We combine careful sourcing with precise roasting and responsive support for coffee and tea customers in Kenya and beyond.

A considered journey

Ripe coffee cherries are hand-picked. Washed and honey processes bring out clarity and sweetness; raised-bed drying and small-batch roasting help express each lot's character. Valved, airtight packaging helps protect freshness, and lots are traceable from source to cup.

Coffee & tea

A Kenyan portfolio spanning specialty coffees and highland teas. Seasonal lots and product formats vary; contact the team for current availability and lot details.

For trade partners

Wholesale enquiries, custom blends and packaging, roast-to-order support, training, brew guidance, and menu development for cafés, hotels, and retailers.
