KENYAN ORIGIN · COMPANY PROFILE

First Cup Coffee & Tea

Thoughtfully sourced in Kenya · Ruiru, Kiambu County · Since 2016

Rooted in Kenya since 2016

We partner with skilled smallholder farmers to grow, select, and roast coffees that tell their story. From the highlands to cafés, retailers, and homes, we connect people with distinctive Kenyan coffee and tea.

OUR PROMISE

“Every bag supports communities at origin—and every cup should taste unforgettable.”

WHAT GUIDES US

Farmer first

Long-term relationships and care for the people behind each harvest.

Roast precision

Small-batch profiles designed to let origin character speak clearly.

Traceable quality

Lots are cupped, logged, and traceable from source to cup.

Quality without compromise · People first · Sustainability from soil to sip

OUR PRODUCTS & PARTNERSHIPS

Care at every stage, from origin to cup

We combine careful sourcing with precise roasting and responsive support for coffee and tea customers in Kenya and beyond.

A considered journey

Ripe cherries are hand-picked. Washed and honey processes bring out clarity and sweetness. Beans dry slowly on raised beds, then small-batch roasting highlights the character of each origin. Valved, airtight packaging helps protect freshness.

Coffee & tea

A Kenyan portfolio spanning specialty coffees and highland teas. Seasonal lots and formats vary; contact the team for current availability and lot details.

For trade partners

Wholesale enquiries, custom blends and packaging, roast-to-order support, training, brew guidance, and menu development for cafés, hotels, and retailers.

SUSTAINABILITY

First Cup highlights soil health, water stewardship, and responsible packaging as part of its commitment to a sustainable future.
